Select file

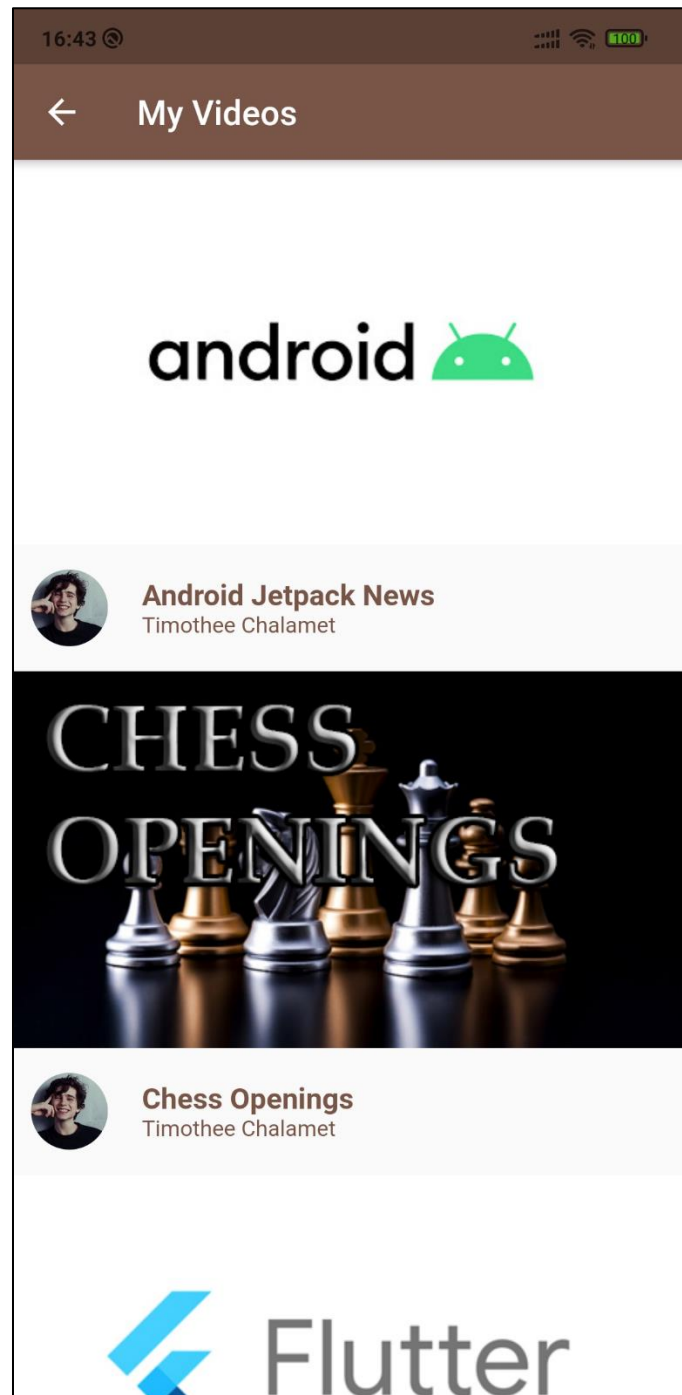

- 7) Select video file
- 8) Select image file for thumbnail
- 9) Click submit button to upload a new video
- 10) If some of the mandatory fields will not be filled the application displays what information is missing and will not submit the upload request

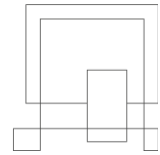

A screenshot of a mobile application interface for uploading a video. The status bar at the top shows the time 16:26, signal strength, Wi-Fi, and 100% battery. The app has a dark brown header with a back arrow and the title "Upload Video". The main content area is white and contains several sections: a video preview area showing a thumbnail with the text "Learn how to make responsive design"; a "Language" section with a dropdown menu currently set to "English"; a "Select file" section with a button containing an upload icon and the text "video added" below it; a "Select thumbnail" section with a button containing an image icon and the text "image added" below it; and a large dark brown "Submit" button at the bottom.

My Video Page

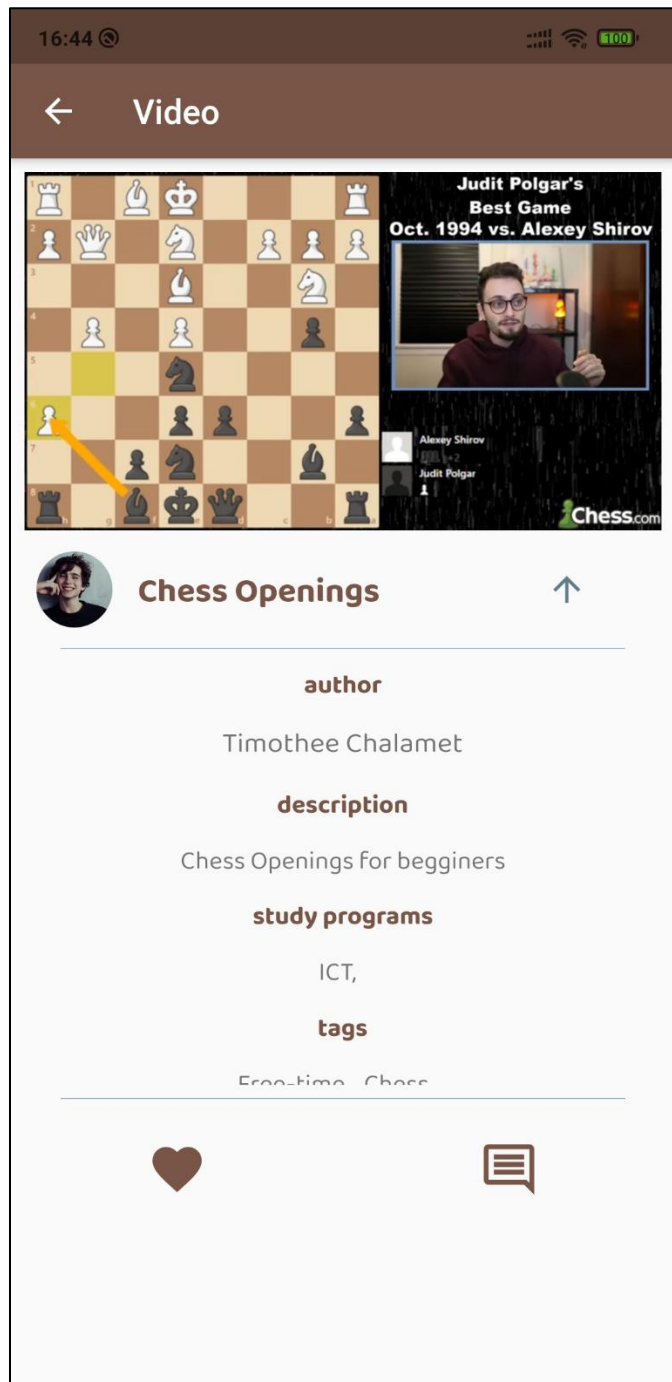

- 1) To see uploaded videos, navigate to my videos page
- 2) Application will display a list of your uploaded videos
- 3) To see video details, click on the video's thumbnail

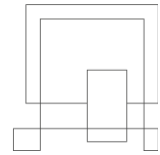

Video Details

- 1) Under video you can see the information about video
- 2) You can scroll in this section to see author's name, description, study programs, tags and language
- 3) To like video, click on heart icon
- 4) You can hide this section by clicking arrow icon under the video, next to the video title
- 5) **Note:** Comments are not implemented, if you press comment icon the application will show a snack bar with a message 'comments section is not implemented'. The arrow icon should toggle between information section and comment section

Preferences Page

- 1) To set your preferences navigate to Preferences Page through navigation drawer
- 2) You can set multiple preferred tags or study programs
- 3) Enter tag to tag field and press add button. The tag should appear under tags field
- 4) Select one or multiple available study programs
- 5) Select minimal and maximal length. The maximal length can not be smaller than minimal. Maximal length is 60 minutes.
- 6) Save preferences by clicking button save
